## Announcement of Establishment of New Subsidiary

We are pleased to announce the establishment of a wholly owned subsidiary, Kyoto Cell Pro Co., Ltd., in Osaka, Japan, dedicated to the development, manufacturing, and marketing of research reagents.

Kyoto Cell Pro Co., Ltd. will leverage the drug discovery and development expertise accumulated by Kyoto Drug Discovery & Development Co., Ltd. to deliver high-quality reagents to research institutions and companies. In addition to product development, the company will actively pursue collaborative research and technology licensing, contributing to the advancement of the life science field.
